MD2010 Conference

The Muscular Dystrophy Association of WA and the Australian Neuromuscular Research Institute invite professionals, students, families and those affected by neuromuscular diseases to attend MD2010. International, interstate and local experts will **connect** together to **learn** and **share** up-to-date information regarding all aspects of neuromuscular diseases. MD2010 will have a diverse and informative program.

Topics being discussed include;

- SMA, CMD, FSHD, LGMD, DMD, IBM, Myotonic Dystrophy and Myopathies
- Understanding diagnosis
- Best practice for neuromuscular disease
- Respiratory management
- Potential therapies
- Understanding clinical trials
- Rights and opportunities

Muscular Dystrophy Association of WA (Inc)

The ultimate objective of the Muscular Dystrophy Association of WA is to find a cure for muscular dystrophy and related conditions and to make life better for those affected.

Australian Neuromuscular Research Institute (Ltd)

The ANRI integrates laboratory science, clinical research, drug trials and clinical practices to advance the health of patients with neuromuscular and neurological disorders. The primary aim of the Institute is to maximise realistic and practical benefits to patients by integrating basic scientific research with ongoing health care and medical training in a sympathetic and supportive environment.
